The closing entertainment of the Consolidated School was held last Friday night to a splendidly filled house who enjoyed the splendid work rendered by Prop. O. W. Cain's pupils. Three short talks were delightfully rendered to an appreciative audience. Friday of this week closes the terms of both the grades and high school. By a most liberal donation from the patrons of this school all the grades will receive a nine-months' school in connection with the first and second year high school the coming year.

Clarence Ensor, son of Ed. Ensor, had a very narrow escape from instant death last week while operating a tractor on the Bogie farm. The tractor was brought to a stop just in time to prevent his being crushed beneath it. His clothes were caught, which threw him in its path, breaking his arm very badly in two places.

Bruce Willoughby has added a veranda to his home recently built.

H. F. Osborn, of Mariba, has moved to his new home recently purchased from H. G. Stafford and wife.

have Carrier Richards back on duty again. As a carrier we consider him second to none. Mr. Lem Faulkner, who acted during Mr. Richards' absence, served in a most creditable manner. He has the makings of a first-class carrier.

It seems as though Mr. Herbert Hoover would rather be a Republican than to be President. Well, so let it be.

We wonder if the Hon. Jim Reed made much of a splash when the Missouri Democracy threw him overboard! Leonard Wood.

Don't Feed Your Profits to "Sleepers"

You are getting better prices than ever before for your dairy products—and are making less. You blame this on the "high cost of feed." DON'T.

Your loss comes from spending the money your producing cows earn to keep free boarders—sleepers. Every cow in your herd must earn dividends these days to bring you out ahead. Cheap feed would only make matters worse. Production and quality would be lowered. You'd still have those "slackers" to feed. Try this solution for your problem:

Give your low producers one more trial with CE-RE-A-LIA SWEETS, the quality feed with guaranteed results. There's every chance that you will build them up to money-making standard. If your record does not show marked increase in milk flow and butter fat content after four weeks' trial, sell those cows for what they'll bring. They're hopeless.

Make this trial, for one cow, without risk to you. If you're not satisfied, feed costs you nothing.

We're sure CE-RE-A-LIA SWEETS will put every cow in your herd on a paying basis. Costs little more than low-protein feed, and results make up the difference twice over. Fed with roughage, it is a perfectly balanced ration—20% protein, 45% fat, 35% carbohydrates. All ingredients are accredited material. Pure, palatable, cane molasses adds to its digestibility.
